Ray reminds us that immigrants are not the ones who "Make you work harder while cutting your pay and scheming to outsource your job away." He warns sexist bosses: "This is Nine to Five, not Fantasy Island. Bring your newspaper here, leave your *Hustler* behind!" And if we get too much more sunshine: "Why not make the North Pole a hot spot for tennis? Put gondolas on New York streets – it worked in Venice!" Perhaps his most important message to us is "The People Are In Charge!" Trump makes us want to run and hide; Ray's songs make us laugh and get active!

Please join us for our fourth annual concert of Ray Korona songs. Since he passed away, the band – and you! – have kept Ray's music alive.
